

Jake Landry

UX Designer, Rapid Prototyper, Tinkerer, Amateur Photographer

EXPERIENCE

Purposeful, Bellevue, WA — *UX Designer*

SEP 2018 - JAN 2019 (Contract via Filter Digital)

Purposeful is a Bill Gates backed startup looking to modernize charitable giving through contemporary e-commerce patterns and transparency. In this role, I:

- Carried the project from ideation to engineering via wireframes, compositions, and prototypes.
- Iterated on disruptor concepts and user interface through numerous testing sessions via usertesting.com.
- Was responsible for creation of a highly successful (NPS 64) prototype that secured funding for the project's future.

Luxoft, Kirkland, WA — *UX Designer*

JUL 2015 - SEP 2018

Luxoft is a technology consulting company with a wide breadth of focus areas. I worked primarily in the IOT space with emphasis on web and mobile. In this role, I:

- Designed wireframes, information architecture, visual design, and more for apps and websites for clients including Microsoft, Alaska Airlines, and RocketSpace.
- Worked with the sales team to supplement sales materials and provide guidance on pitch decks.

Airbiquity, Inc., Seattle, WA — *Business Analyst*

OCT 2013 - JUL 2015

Airbiquity is a company seated at the forefront of the telematics industry. In this role, I:

- Managed product requirements for over 25 smartphone applications adapted for use in the vehicle.
- Developed visual and behavioral product designs for multinational businesses, including Nissan and Fiat-Chrysler.

EDUCATION

University of Washington, Seattle, WA — *Human Centered Design & Engineering*

SEP 2009 - JUN 2013

Completed Bachelor of Science in Human Centered Design & Engineering, HCI Concentration
